

Product name	RIKACID SA	
Chemical name	Succinic anhydride	
Molecular formula (M.W.)	C ₄ H ₄ O ₃ (102)	Structural formula of SA
ENCS No.	2-921	
CAS RN [®]	108-30-5	
EINECS No.	203-570-0	
TSCA	Listed	

Applications	Resin, Paint, Pharmaceutical, Fiber etc.
Feature/Function	It is also used as a synthetic raw material for polyester resin raw materials, alkyd resin raw materials, pharmaceutical raw materials, resist ink raw materials, agricultural chemicals, etc. Improves flexibility and developability.
