

Product name	RIKACID TMEG-200	
Chemical name	Trimellitic acid, ester with ethylene glycol	
Molecular formula (M.W.)	C ₂₀ H ₁₀ O ₁₀ (Average molecular weight 410)	Structural formula of TMEG-200
ENCS No.	7-705/3-1362	<p>(Mixture)</p> 
CAS RN [®]	71342-70-6/552-30-7	
EINECS No.	275-346-0/209-008-0	
TSCA	Listed	
Applications	Polyimide, polyamideimide raw material etc.	
Feature/Function	Has high heat resistance. It is used as a raw material for polyimide resin and polyamide-imide resin.
