

Product name	RIKACID TMEG-S	
Chemical name	Trimellitic acid, ester with ethylene glycol	
Molecular formula (M.W.)	C ₂₀ H ₁₀ O ₁₀ (Average molecular weight 407)	Structural formula of TMEG-S
ENCS No.	7-705/3-1362	<p>(Mixture)</p> 
CAS RN [®]	71342-70-6/552-30-7	
EINECS No.	275-346-0/209-008-0	
TSCA	Listed	

Applications	Heat resistant insulating varnish raw material, adhesive raw material etc.
Feature/Function	Used as a raw material for heat-resistant insulating varnish. Improves heat cycle property, thermal shock resistance, shock resistance, adhesion, and flexibility.
